

Microbiological Colloquium SS 2023

Time: 5:15 pm, Room: W15-1-146

- 19.04.2023 **Tristan Wagner**, MPI for Marine Microbiology, Max Planck Research Group
Microbial Metabolism, Bremen
**“Nitrogen-assimilation under extreme energy limitation, unveiling the
molecular secrets of marine methanogens”**
Host: Martin Könneke
- 03.05.2023 **Eva Spieck**, Uni Hamburg, Research Group Microbiology & Biotechnology
**“Directed cultivation approaches select for novel nitrite-oxidizing bacteria:
competition and cooperation”**
Host: Martin Könneke
- 17.05.2023 **Marcus A. Horn**, Leibniz Uni Hannover, Institute for Microbiology
**“How biodegradable and non-degradable microplastic polymers shape soil
and invertebrate gut microbiota”**
Host: Martin Könneke
- 31.05.2023 **David Ngugi**, DSMZ-German Collection of Microorganisms and Cell Cultures,
Geomicrobiology Group, Braunschweig
“tba”
Host: Meinhard Simon
- 14.06.2023 **Jan-Hendrik Hehemann**, Uni Bremen/MARUM, Glycobiology Group
“Structure & function of extracellular glycans in the carbon cycle”
Host: Martin Könneke
- 28.06.2023 **Thomas Hackl**, University of Groningen **“Viral satellites and related mobile
genetic elements shape the genomic plasticity of abundant open-ocean
microbes”**
Host: Meinhard Simon

Guests are cordially invited!
