

DfH– Research Group **Anatomie**

- Name: Prof. Anja U. Bräuer
- Staff number: 2 Post-docs, 2 PhD students (starting Sept. 2017 in Oldenburg)
- Main research areas: mouse cortical development, neuronal differentiation, de- and regeneration processes, brain aging
- Interested in: phosphate-phospholipid-modifying proteins, lipid metabolism, function on neuronal processes under physiological and pathophysiological conditions; biomarker screening
- Expertise: molecular biology, gene expression, cell biology, cell life imaging, in utero electroporation, neuroanatomy, signaling transduction analyses
- looking for expertise in: bioinformatics, immunology, electrophysiology, mouse behavior, translational neuroscience, lipid characterisation
- E-Mail: anja.braeuer@uni-oldenburg.de
